

Year Three News

News from class

I hope you are all keeping safe and well. You've made a super start to the week!

At school, we really enjoyed our learning in Science on Friday - we sorted a wide range of rocks focusing on their properties such as size, shape and colour and then looked at more specific features such as crystal content. We also explored how rocks are used in the world around us and found out that even just on our school grounds, there are at least 6 different types of rocks to be found, each serving a different purpose. We've worked really hard on our Stone Age cave painting designs too. You can see some of them in the photographs below. We can't wait to create our cave paintings later this week. We've also continued our research on the Stone Age, finding out lots of information about houses, clothing and diet.

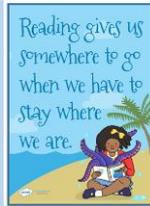

News from home

What a fantastic effort you have been putting in to your home learning! It's great to see that lots of you are getting exercise too either by going out for a walk or exercising in your home. I have received some excellent examples of home learning this week. You can see some of these in the photographs shown below. I am so proud of the work you are doing at home. I am particularly impressed with the high standards of presentation which some of you have shown throughout all the work you have done. Make sure you keep sending it in, it's fantastic to see what you have been up to.

Top Learning Tips

Read your way to an adventure!

We can't get out and about as much as we are used to at the moment. But remember, a story can take you on an adventure without you stepping foot out of the house. It may be a story you've read 100 times before or a story that is brand new to you, it may be a book that you can hold in your hands or a text on the screen, either way take time each day to read... who knows where the words will take you!

Set yourself movement breaks throughout the day. Have you tried Joe Wicks' 5 minute move kid's workout? Click the link below [Keep Moving](#) Do make sure you have enough space and that there are no obstacles in your way.

Class joke

What kind of coat does an octopus wear?

An army jacket!

Photographs from home and school

We made careful observations of a range of different rocks and chose how to sort them. Can you guess the criteria that we chose?
