As Summer Comes to a Close

Welcome to the September edition of the Healthy Telford newsletter

The summer holidays have flown by and it's back to school this month, but hopefully we've not seen the last of the good weather just yet. There are plenty of opportunities coming up to get out and about in your local area, including a Couch to 5K programme in the Woodside area, and the Wellington Walking Festival. We're also looking for your feedback on how you use Telford's green and blue spaces, and if you're into cycling the Travel Team would love to hear from you.

So it's time to grab yourself a drink or a healthy snack and catch up on what's going on in Telford and Wrekin this month to support your health and wellbeing.

And don't forget this month's quiz, which may give you some inspiration for how to build a range of physical activities into your daily life, even if living with a long-term health condition.

2-8 September is Know Your Numbers Week

Do you know your numbers?

Blood Pressure UK runs the [Know Your Numbers campaign](#) every September and this is the perfect opportunity for you to get your blood pressure done if you haven't recently had a check.

Getting your blood pressure checked is the first step to preventing heart attacks and strokes. High blood pressure is a major risk factor for heart disease and stroke, two of the leading causes of death in the UK, and it's known as 'the silent killer' because it often has no symptoms until it's too late.

Knowing your numbers means you can start making healthy lifestyle changes or taking medication if you need it, to bring your blood pressure down to a healthy level. So, it is important to make the time to check your blood pressure to see if it's under control.

And you don't have to make an appointment with your doctor to get checked. Ask your local pharmacy if they offer a checking service, or take advantage of

the Community Blood Pressure Project which does blood pressure checks at community groups and events around Telford and Wrekin.

[Visit the Healthy Telford website to find out where the Community Blood Pressure Project is offering checks this September.](#)

On Thursday 3 October 2024 at Meeting Point House, Telford TF3 4HS between 10am and 2pm Community Resource invites you to come to a drop-in event to discover new ways to reduce isolation.

Learn how you can become a Volunteer Buddy, offering your time to enable people to enjoy community activities that reduce isolation and loneliness. The 'Buddy System' is a support service for people who may be lacking in confidence, have low self-esteem, are isolated and alone or just want some company to get involved in new activities. It helps alleviate inactivity and social exclusion by supporting people into new activities, developing new interests, or pursuing new or existing hobbies with a companion alongside. Come along and find out more about how you could get involved and volunteer in your community to help reduce isolation and loneliness.

There will also be information and advice about hearing loss and the assistance that is available through local hearing loss support hubs and home visits for those wearing Shropshire-issued NHS hearing aids.
